

KTS Named 2009 Top Growth Partner in State/Local Government Sector

11/12/2009 12:00:00 AM

Annual awards recognize exemplary channel partners who demonstrate innovative and unique business strategies, year-over-year growth and high customer satisfaction ratings.

Knot Technology Solutions (KTS) has been named the 2009 Top Growth Partner in the State/Local Government Sector by Ingram Micro Inc. (NYSE: IM), the world's largest IT distributor. Ingram Micro unveiled the 2009 Spotlight Awards Winners on November 10 at its annual Gov/Ed Alliance Invitational in Savannah, GA. The honor comes as KTS continues to grow its State and Local government business with multiple Prime contracts with the State of Maryland and Miami Dade County, FL.

"KTS maintains a strong reputation for excellent customer service and has really leveraged the GovEd Alliance community to grow their business and add more value to their clients despite a challenging economy," says Marty Battaglia, Senior Director, Sales, Ingram Micro U.S. "We are pleased to honor KTS as this year's Top Growth Partner in the state and local markets."

"We are very fortunate to work with some extraordinary people at Ingram Micro who have helped us grow our business in many ways. KTS is honored to receive this award as there are so many other companies in the market doing similar work - it is gratifying to be recognized," said Peggy Patrick, President of KTS.

KTS is a woman-owned small business (WOSB) founded in 2003 that provides leading edge technology solutions and first-class, consulting services to a diverse clientele in both the public and private sectors. For more information, visit us at www.knot-tech.com or contact 410-867-1071.
